Deputy + Xero Working Together

Get Started Fast

Sync existing employee details from Xero straight into Deputy for a quick and easy start.

Make Payroll Simple

Easily push collected timesheets via the Kiosk or Smartphone App into Xero in a matter of seconds.

Stay Compliant

Deputy calculates overtime, penalty rates, leave loading, and salary costing with every shift.

Save Hours in Payroll Processing Time Each Week

- Step 1**
Approve timesheets
- Step 2**
Export to Xero
- Step 3**
Run Payroll

Key Selling Points

- Spend less time doing paperwork and more time out with customers and managing your team.
- Create and share schedules with employees in minutes - notify them via email, SMS and push notifications.
- Empower employees by giving them the ability to swap shifts, manage their own leave and unavailability.
- Eliminate time theft and buddy punching with facial recognition technology and digital timesheets.
- Never be understaffed again - last minute shift changes can be filled in minutes not hours.

FAQ's

- **Does Deputy have an app?**
Yes, Deputy works across all your devices with apps for iPhone, iPad, Android and desktop.
- **How do employees start and end shifts?**
By using the Deputy Kiosk for iPad, within the workplace, or from the Deputy app on their phone, or any web browser.
- **How does Deputy eliminate buddy punching?**
The Deputy Kiosk uses face detection to ensure that the right person is on shift. Deputy also has geolocation technology for those team members using the app on their phone.

Audience - Target Market / Customer

Deputy is perfect for any business with hourly paid employees - from micro businesses to large enterprise organizations.
